WELCOME BACK!

ORTHOPAEDIC FOOTWEAR TECHNOLOGY : A MUST FOR SPECIALISTS

OTWorld is the largest and internationally most significant industry get-together for all care providers, manufacturers and distributors in the sector as well as those working in health insurance and health policy in the area of modern orthopaedic treatment and care. It combines high-profile advanced training with the leading world trade show.

In 2022, OTWorld will once again offer targeted insights into treatment and care concepts in orthopaedic footwear technology – at both the trade show and the congress. The focus is on optimal care with insoles and custom shoes. Especially for complex fittings, OTWorld offers targeted interdisciplinary exchange with colleagues from Prosthetics & Orthotics, physiotherapy and occupational therapy, with physicians and also with the employees from health insurance companies.

NEW: TAKE PART LIVE AND DIGITALLY

For the first time, you can complement your visit to Leipzig with new digital formats. These will further enhance your experience of OTWorld and allow your colleagues who are unable to travel to Leipzig to take part as well.

SAVE THE DATE:
HUGE OTWORLD PARTY ON TUESDAY,
10 MAY 2022 IN THE GLASS HALL.
TICKETS AVAILABLE AT
www.ot-world.com/ticket_en

FOCUS ON TREATMENT AREAS

Orthopaedic treatment and care to suit individual needs is a prerequisite for an increasing number of people to enable them to be independent, mobile and participate in daily life. At OTWorld, it will be even easier than before to find the solutions and concepts you need for your patients.

DISCOVER THE 9 TREATMENT AREAS

- Mobility limitations
- Diabetes and vascular diseases
- Osteoarthritis and degenerative diseases
- Stroke
- Sports prophylaxis and injuries due to accidents
- Back
- Movement disorders and paralysis
- Cancer
- Prevention

NEW: TREATMENT ROUTES

In the three new Treatment Routes in Hall 3, you can take part in tours and lectures addressing the challenges of quality treatment and care, learn about procedures for particularly complicated cases, meet experts and colleagues, and discover new medical aids. The following Treatment Routes await you:

- Cerebral Palsy
- Lymphatic Diseases
- Insoles

NEW: DIGITAL INFORMATION PORTAL

A new and unique digital information service in the OTWorld app and on the website focuses on the clear presentation of expert knowledge and innovations within the most significant treatment areas.

NEW: BRANCH-POLICY FORUM

Following a successful start at the digital OTWorld.connect, the Branch-Policy Forum will take place live for the first time at OTWorld in Leipzig. More than 35 panelists in 8 branch policy forums will address the question: What is the status of responsibility for quality-assured orthopaedic treatment and care – in Germany, Europe and worldwide?

SELECTION OF TOPICS:

- Showing Responsibility: Does the International Provision with Medical Aids and Assistive Devices know (no) Boundaries?
- Telemedicine in Prosthetics and Orthotics
- Taking Responsibility: Digitalisation Means More Than eHealth, ePA (Electronic Patient Records) And E-Prescription

Programm available in German:

- High-Quality, Professional Orthopaedic Treatment and Care in Germany – Who Is Responsible?
 - Who Is Entrusted With Responsibility in Healthcare? On the meaning of the paramedical professions
 - Between Work From Home, Self-Improvement and Demographic Change – Should We Be Taking Responsibility for Our Own Health?
- Participation is included in congress and trade show tickets. A pre-registration is not necessary.

Browse the Product and Exhibitor World at www.ot-world.com/exhibitor-list

FEET AND FOOTWEAR AT THE TRADE SHOW

As an orthopaedic footwear professional, you are in the right place once again at OTWorld 2022. More than 150 exhibitors from around the world will be coming to Leipzig with specialised products and services for you. More than 60% of the exhibitors from the orthopaedic footwear and technology sector were also at the last in-person event to present their new product innovations in Leipzig! You can already start exploring all the exhibitors and products in our new Product and Exhibitor World.

THE HIGHLIGHTS

DIGITALISATION IN FOCUS

Numerous new exhibitors will be providing inspiration on advances in digitalisation for the future. Focal points include 3D scanners and software, advice revolving around the process chain, new materials and printers. Additionally, in the Forum Digitalisation, numerous exhibitors will give short presentations introducing their concepts.

START-UP ZONE

Here you will meet 15 young companies with their innovations in tow and have the opportunity to exchange ideas with industry experts.

EXHIBITOR WORKSHOPS

In more than 50 exhibitor workshops, manufacturers will introduce you to new treatment and care options as well as digital solutions for the workshop and office.

YOUTH.ACADEMY TO

This much-loved event for trainees in prosthetics and orthotics, orthopaedic footwear and physiotherapy as well as for medical students will be once again offering an extensive educational programme, a party and many other exciting extras on 12 and 13 May 2022. Detailed information is available at www.ot-world.com/youthacademy.

NEW: TREATMENT ROUTE INSOLES

The discussion on upholding minimum standards for insole treatment and care is a hot topic in orthopaedic footwear and technology. At the Treatment Route Insoles, which was specially planned with this topic in mind, we ask the question: What is the state of quality standards in medical insole treatment and care?

Together with the Competence Center for Orthopaedic Footwear Technology (KomZet O.S.T.), the ZVOS, and the BIV-OT, a panel of experts has designed five stations to demonstrate the entire treatment and care process for patients with medical insoles:

- Point of evidence
- Diagnosis and measurements
- Gait analysis on a long walking track
- Insole manufacturing
- Fitting with follow-up

OUR TIP:

Expert guided tours will be offered daily. Register now in the OTWorld ticket shop. It pays to move quickly as there are only 12 places available per tour.

NEW: TREATMENT ROUTE CEREBRAL PALSY

The new Treatment Route Cerebral Palsy in Hall 3 offers all technicians, physio- and occupational therapists, physicians and health policy and insurance representatives a central meeting point for advanced training and professional exchange.

Optimal and complex orthopaedic treatment and care for CP patients in all stages of life – from childhood to adulthood – will be demonstrated and discussed live in the Treatment Route Cerebral Palsy. The fitting of foot and foot wear of patients with CP regularly poses challenges for orthopaedic footwear professionals. The Treatment Route presents the complexity therefore also with a focus on orthopaedic footwear technology.

ON-SITE AND ONLINE: **DIGITAL SERVICES OFFER NEW ADDED VALUE**

MATCHMAKING:

NEW FEATURE FOR INTELLIGENT NETWORKING

You can now make new contacts more easily than ever and connect with other OTWorld participants using the new Matchmaking tool. It brings professionals, dealers, suppliers and potential business partners together based on their interests. Arrange a meeting directly at OTWorld or a digital video conference.

PRODUCT AND EXHIBITOR WORLD:

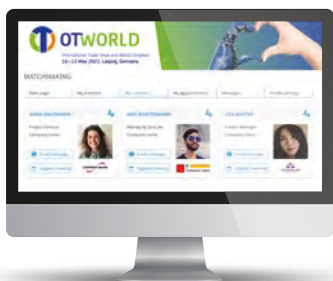

CENTRAL OVERVIEW OF THE WORLDWIDE ORTHOPAEDIC TREATMENT AND CARE SECTOR

Discover the range of products and services on offer at OTWorld as publicised in the new Product and Exhibitor World. Intuitive filter options enable you to search for innovations, product categories or treatment areas.

MEDIA LIBRARY:

NEVER MISS A HIGHLIGHT AGAIN

After OTWorld, the Media Library will be open for two months and is available worldwide for those interested to browse and learn. Alongside the free content, portions of the congress programme can be viewed with an additional Congress-on-Demand ticket. For those visitors with a full ticket to the World Congress, this is already included.

DIGITAL LIVE PROGRAMME:

JOIN IN ONLINE

During OTWorld, highlights from the trade show and the congress will be streamed online. At the digital Innovation Talks, exhibitors will be holding presentations lasting 15 or 30 minutes. Selected highlights from the congress programme will also be shared. Access is free for users who are logged in.

CONTENT IN THE MEDIA LIBRARY:

- Innovation Talks
- Branch-Policy Forum
- Congress programme from Rooms 1 and 2 (German and English)
- Congress highlights from the stream during OTWorld

CONVENIENT:

The Product and Exhibitor World, the congress and trade show programme, the interactive hall plans and the Matchmaking tool can also be found in the OTWorld app!
