

# THERACORE UNIVERSAL 7" WRIST BRACE

## Targeted Support for Wrist Injuries and Conditions – Pain Relief, Stabilisation, and Enhanced Recovery

A reliable source of stability, providing targeted support and compression for various wrist injuries and conditions. It aids in pain relief, recovery, and injury prevention, while allowing full finger and thumb movement.

- ✓ **TheraCore VA Material**  
Lightweight, breathable and antibacterial for all-day comfort.
- ✓ **Adjustable Strapping System**  
Provides a customised and secure fit that ensures even pressure distribution, secure positioning, and targeted compression.
- ✓ **Aluminium Palmar Bar**  
Crafted from aluminium for easy shaping, the palmar bar maintains the wrist in a neutral position, reducing tendon strain, preventing excessive flexion, limiting movement and promoting healing by immobilising the wrist.
- ✓ **Durable Palmar Bar Pocket**  
Made from a medical-grade vinyl material, the pocket securely holds the palmar bar, ensuring optimal wrist support and immobilisation.
- ✓ **Universal Fit - One Size Fits Most**  
Eliminates the need for multiple versions, simplifies inventory and enhances user convenience.

**Manufactured  
in our NEW  
TheraCore Material**  
The Future of Comfort,  
Performance & Sustainability.

TheraCore sets a new standard as a sustainable alternative to traditional materials, proving that high performance and environmental responsibility go hand in hand.
