structure for tailored  
biomechanical  
control

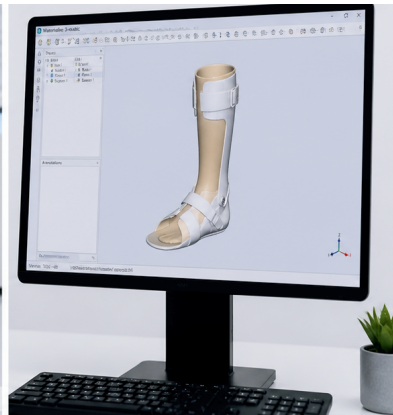

**LOCALIZED  
OFFLOADING**

Targeted relief  
where patients  
need it most

**INTEGRATED  
BOOT  
FUNCTION**

Built-in comfort  
and protection  
in one solution

# WHY DISTRIBUTORS CHOOSE OUR AFOs

## TAILORED BIOMECHANICS

Multi-material design allows precise control of support, alignment and movement

## SUPERIOR COMFORT

Lightweight and low-profile design for better compliance

## SMARTER WORKFLOW

End-to-end digital process saves time and improves consistency
