

***Regain  
mobility in  
record time.***

**CONTEMPLAS**  
**Gait Analysis**

Walk. Analyse. Improve.

Record — AI-Powered Processing — Unlock Insights — Auto-Report

## See and Measure Every Step

- + Make the human gait cycle **visible and measurable**
- + **Identify and monitor** gait deviations
- + **Perfecting orthopedic devices** provision with data
- + **Safely store** and **compare** data sets over time

## Use Smart and High-End Tech

- + **Automatic joint angle detection** powered by AI
- + **Speed up detection** of gait deviations
- + **Automated** data processing
- + **Easy-to-use**, smart and intuitive user interface

Experience **CONTEMPLAS**  
Gait Analysis in action.

## Improve with Insights

- + **Sharpen your instincts** with insights
- + **Easily document** and **visualize** therapy progress
- + Using **accurate** and **evidence-based data**
- + Enjoy and share **automated** data reporting

## Expand with Tech Add-ons
