About

The Circleg Cosmetic Covers are designed for transfemoral & transtibial amputees and give the Circleg its unique look.

>>> The Cosmetic Covers provide a natural leg shape and maximum protection for your prosthesis. The ultra lightweight, yet sturdy impact resistant material can be adjusted in length and shape to suit the individual user. The cover serves as an ideal base for customized leather or textile wrappings. The simple clamp system allows for quick fitting, allowing professionals to provide a high quality customized prosthetic cosmetic in minutes.

Features

Lightweight

Due to the use of expanded polyethylene (EPP) the Cosmetic Cover is extremely lightweight

Quick fix

Due to the easy clamping system, the finishing is done in just a few minutes

	Distinctive features	quick fit
		extremely lightweight
		adjustable
