**AS Abrechnungsstelle für Heil-, Hilfs- u. Pflegeberufe AG - financial services  
for the medical, support and nursing professions**

**AS Financ€simplifies life for patients when choosing a hairpiece**

It is often the high cost of good quality hairpieces – costs which patients frequently have to bear themselves – that prevents a sale. The AS AG is, therefore, now offering help with these costs through their AS Financ€ scheme. First of all, the company takes on the patient contribution that must be paid to the specialist wig-maker upfront. This sum is then paid back to the AS AG in instalments. This gives the wig-maker greater opportunity to sell more high-quality replacement hairpieces in the future.

In addition, the AS AG have, in TopM Software GmbH, gained a new partner, whose software solutions are being widely introduced into, inter alia, surgical stores and healthcare supplies retailers, as well as orthopaedic workshops.
