HEIKAUS Interior GmbH

Room concepts for healthcare institutions

Heikaus (Mundelsheim, Germany) have applied modern approaches to furnishings and equipment, in order to optimise work flows in healthcare institutions. The aim is, moreover, to improve efficiency. Rehab centres, healthcare supplies retailers and surgical stores, as well as orthopaedic technicians and orthopaedic footwear technicians are provided with contemporary sales and consultation rooms in which both customers and staff feel comfortable. In their designs, Heikaus take their cue both from the locality and physical space they are given to work with and from the requirements of the particular sector involved.
